SPS HIGH PRESSURE MULTISTAGE PUMP

- Flows to 3200gpm (110,000 bpd)
- Horsepower to 2500hp
- Pressures to 5000psi
- Temperature to 450F
- Full Function testing on every skid
- Machined motor pads
- Front and Back pullout
- Finned Thrust Chamber to reduce temp
- Duplex Stainless Steel available
- Shop performance test on every Thrust Chamber

INDUSTRIAL PROCESS PUMPS

- ANSI CPT Process Pumps
- Multi-Stage Ring Section Pumps
- Light, Medium & Heavy Duty Submersible
- Vertical Sump Pumps, Non-Clog & Cantilever Designs
- Pump Controllers & Monitoring Equipment
- Wet-Pit Vertical Turbine Pumps
- Repair Services

INDUSTRIAL PROCESS PUMPS

- API610 Type Process Pumps for Services Up To 850 Degrees F.
- Air & Water Cooled Pumps for Hot Oil, Hot Water, NGL Booster, Etc.
- Horizontal, Vertical, Self-Priming and Magnetically Driven Process Pumps.

API610 VERTICAL & HORIZONTAL and RECIPROCATING PUMPS

- FisherPump - VS1 & VS6 Vertical Turbines, Submersible Turbines.
- BB4 & BB5 API610 Horizontal Multistage Process Pumps.
- Triplex & Quintuplex Reciprocating Plunger Pumps and Packages.
- UL/FM NFPA20 Fire Pump Packages.

LOW-FLOW SIDE CHANNEL PUMPS

- Low-Flows, High Differential Heads, Low NPSHr.
- Capable of Handling Vapor Laden Process Fluids (Up to 50%).
- Conventional Sealed and Sealless Mag-Drive Options.

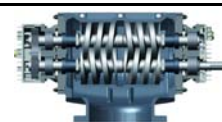

SLURRY, SOLIDS HANDLING, AODD, MECHANICAL SEALS

- Hard Metal Mud & Slurry Pumps, Flows to 2,600 GPM, Heads to 550 Feet.
- Heavy-Duty Solids Handling Self-Priming Pumps. Flows to 3,400 GPM.
- AODD Pumps in Metallic & Non-Metallic Construction, 1/2", 1", 2", 3".
- Mechanical Seals - Single, Double, Cartridge, Component, API682.

TWIN SCREW PUMPS

- Self-Priming, Low Pulsation, Low Noise, Low NPSH.
- Handles Low & High Viscosity Fluids. Multi-Phase Boosting.

NEPTUNE METERING PUMPS

- Metallic & Non-Metallic Positive Displacement Metering Pumps.
- Calibration Columns, Relief Valves, Pulsation Dampeners, Agitators, Flow Monitors.
