

H-Pumps HIGH PRESSURE MULTISTAGE PUMP

- Flows to 3200gpm (110,000 bpd)
- Pressures to 5000psi
- Temperature to 450F
- Full Function testing on every skid
- Machined motor pads
- Front and Back pullout
- Finned Thrust Chamber to reduce temp
- Duplex Stainless Steel available
- Shop performance tested Thrust Chambers

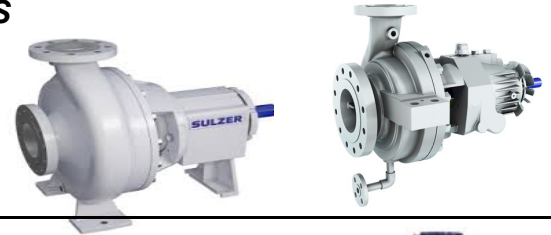

- Remanufactured API Multistage Pumps (12 to 14 weeks)
- Remanufactured API Single Stage (8 to 12 weeks)
- Engineering, Testing, Packaging, Parts, Rebuilding
- Full function, as built testing capabilities
- Warranty is 12 month / 18 month
- Massive Inventory

ANSI, API & INDUSTRIAL PUMPS

- ANSI CPT Process Pumps
- API -610 Pumps
- Vertical Turbines
- Wet-Pit Vertical Turbine Pumps
- Sulzer Spare parts

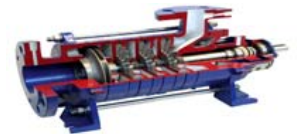

API-610 VERTICAL CAN PUMPS

- FisherPump - API-610 Vertical Turbines, Vertical Can Pumps
- BB4 & BB5 API610 Horizontal Multistage Process Pumps.
- Manufactured, assembled and Tested in Houston, TX.
- 100% API-610 latest edition pumps delivered 16-18 weeks

LOW-FLOW SIDE CHANNEL PUMPS

- Low-Flows, High Differential Heads, Low NPSHr.
- Capable of Handling Vapor Laden Process Fluids (Up to 50%).
- Conventional Sealed and Sealless Mag-Drive Options.

ANSI, SLURRY, SOLIDS HANDLING, AODD Pumps

- ANSI Pumps: Carbon Steel or Stainless Steel construction - In Stock.
- Packaged ANSI pumps: Carbon steel, tandem seal w/Plan 52 = 5-7 weeks
- Heavy-Duty Solids Handling Self-Priming Pumps. Flows to 3,400 GPM.
- AODD Pumps in Metallic & Non-Metallic Construction, 1/2", 1", 2", 3".

NEPTUNE METERING PUMPS

- Metallic & Non-Metallic Positive Displacement Metering Pumps.
- Calibration Columns, Relief Valves, Pulsation Dampeners, Agitators, Flow Monitors.
